PLANTUI APP

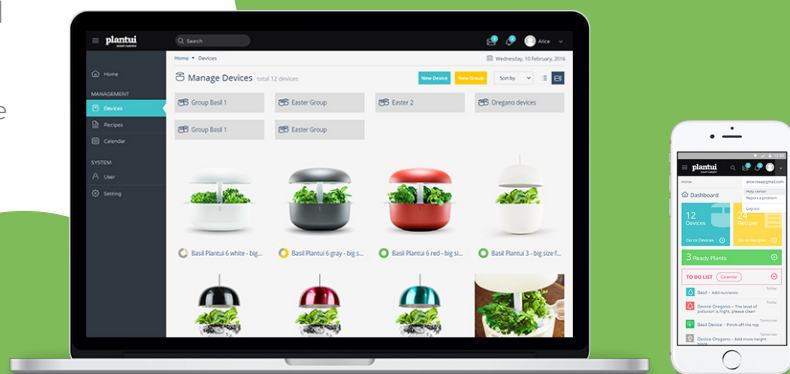

UX/UI DESIGNER - PLANTUI OY - 2016

Plantui application will apply Internet of Things technique to improve Plantui Garden device - a smart garden for everyone without soil, fertilizer. With Plantui App, everyone can follow and control plant growth from remote.

With data collection from devices, users can quick and easy to observe and control plant garden through mobile app and web manager.

During growth timeline, Plantui app notifies significant features and gives recommendation about important milestones for plants.

INVIE APP

PROJECT LEAD & DESIGNER - 2016

SAVING ENERGY •

Start with saving energy ideal in [Avanto kickstarter program](#), Invie House bring a smart solution for future house to follow and control electric furniture via Invie application. Apply [Internet of Things](#) technique in Invie Plug, we bring a wire-less house control system.

• TEXT & VOICE CONTROL

With Invie House, people are free to communicate and chat with electric device from remote, observe and manage electric consumption usage monthly.

Turn on coffee machine please!

It's ready now. Have fun!

It's hot. Could you set air-condition down to 20 degree?

Ok. Done.

KIEM.FI

UX/UI DESIGNER - KIEM OY - 2015/2017

Kiem Ravintola is a Chinese Restaurant in Oulu areas, Finland. In Kiem site, customers feel relax to search information details, list of foods and music event in Kiem Pub every weekend. Build by Wordpress CMS, the admin page provides a smooth manager tool for modifying and update posts.

In 2017, new website interface focuses on highlight Menu list and buffet lounas service with colorful graphic materials.

OUTDOOR AR

UX/UI DESIGNER - SUPRVIEW OY - 2015

• OUTDOOR AR 1.0

OUTDOOR AR offers you a gorgeous way to view your house in its glory. Under the effect of the use of cutting-edge Augmented Reality technology, 3D model of building will be smoothly visualized in the real environment.

OUTDOOR AR 2.0 •

New app provides an intuitive technique to discovery both outside and inside your house. With walk through view, customers feel relax to customize home style by own ideal.
